- 66.6 PERCENTAGE
- ### VELAMMAL MAIN-HSC
- 88.8 PERCENTAGE

## PROFILE

To secure a challenging position in a reputable organization to expand my skills, develop my knowledge side by side achieving the goals of the organization.

## PROJECTS

### SOCIAL MEDIA WEBSITE

In this website the user can share or add post and user can delete the post that is not needed.

Creating this website, I learned to manage React components and implement functionalities in Javascript. I used CSS for styling and this made me to enhance my CSS skills along with React.

### BURGER WEBSITE

This is a single page HTML, CSS project.

In this website I used CSS grid, Flex Hover effect to enhance the look of the website.

This website is also made by incorporating Bootstrap.

### VOICE ASSISTANT

This Voice Assistant takes human speech as command and provides information according to it.

It is completely made by using Python and its functionalities are improved by modules and packages
